SKILLS

- **Languages:** C++, C, Python, PHP, JavaScript
- **Frameworks:** HTML and CSS, Express US, Bootstrap, NodeJS, React, Tailwind CSS
- **Tools:** MySQL, MongoDB, Vs Code, Dev C++

PROJECTS

- **Hotel Booking Website:** Feb-2025
Developed and deployed a full-stack hotel booking platform using **HTML, CSS, JavaScript, Node.js, and Express.js**. Implemented features for hotel search, room detail viewing, reservation booking, and booking management. Built a secure user authentication system with robust login/logout functionalities, ensuring data protection and seamless. Integrated MongoDB/MySQL to securely persist, manage, and retrieve user and booking data efficiently. Designed a fully **responsive user interface**, ensuring smooth experience across devices. Optimized backend APIs for fast response times and implemented secure data handling practices.
Tech: Html, Express, JavaScript, Node J.s and CSS
- **Food Delivers Web App:** Jan-2024
Developed a full-featured **MERN stack** (MongoDB, Express.js, React.js, Node.js) food delivery platform enabling users to **browse restaurants, place food orders, track delivery status, and make secure payments**. Created an **admin dashboard** for restaurant owners to manage menus, view orders, and update delivery statuses. Integrated a **secure payment gateway** and **real-time notification system** for order updates. Designed a **responsive, mobile-friendly UI** to ensure seamless user experience across all devices. Optimized backend **API performance** to ensure low-latency order processing and data security.
Tech: MERN Stack (Mongo DB, Express, React, Node J.s)

EXPERIENCE

- Front end developer at Mac Beese Connection 6 Months
Developed and maintained **responsive web interfaces** using **HTML5, CSS3, JavaScript, and React.js**, ensuring cross browser compatibility and mobile optimization. Collaborated with designers and backend developers to translate **UI/UX wireframes** into functional, user-friendly features. Improved website performance by implementing **code-splitting, lazy loading, and optimized asset delivery**. Integrated RESTful APIs to fetch and display dynamic content, enhancing real-time user interactions. Participated in **code reviews**, daily standups, and Agile development sprints to deliver high-quality, scalable components.

ACHIEVEMENTS

- MERN Stack Developer Certification – Udemy** Dec’2024
Completed an in-depth course on **MongoDB, Express, React, and Node.js**, mastering full-stack development, API integration, and deployment.
- Hackathon – Full-Stack Web Development** Aug’ 2024
Developed a high-performance **MERN stack** application within a competitive coding event, showcasing skills in **real-time data handling, authentication, and UI/UX design**.
- Open-Source Contributor – MERN Projects** Jun’ 2024
Contributed to **GitHub repositories** by optimizing API performance, improving UI components, and enhancing database security in MERN-based applications.

EDUCATION

- Lovely Professional University** Punjab, India
Master of Computer Application **CGPA: 7.35** Since August 2024
- Lovely Professional University** Punjab, India
Bachelor of Computer Application **CGPA: 6.75** April 2021 - March 2024
